

# DECKSHIELD PROTECTIVE COATING FOR PARKING DECKS

## About Deckshield

Deckshield is a multifunctional polyurethane flooring system providing exceptional impact and abrasion resistance, Deckshield protects against a range of acids, alkalis, solvents, alcohol and fuels.

The Deckshield range of polyurethane car park flooring materials can help to enhance the visual appearance of any parking garage while at the same time improve light reflectivity, reduce noise from tyre squeal as well as act to prevent water ingress into the concrete structure.

## Deckshield ID

Deckshield ID is a flexible polyurethane deck coating system for use on intermediate decks of multi-storey car parks.
